Tekno

LA QUALITÀ È UN VALORE CHE CRESCE, PROGETTO DOPO PROGETTO, CON L'INNOVAZIONE CONTINUA.

QUALITY IS A VALUE WHICH GROWS, PROJECT AFTER PROJECT, WITH CONTINUOUS INNOVATION.

Oikos: nell'antica Grecia significava "casa". Da oltre vent'anni Oikos progetta e produce le proprie porte blindate in Italia nello stabilimento di Guaro a 50 km da Venezia. Il mercato riconosce Oikos come leader nel segmento dell'alto di gamma. Oikos produce porte blindate su misura dagli alti standard qualitativi. Tutta la sua produzione è certificata: antieffrazione (Classi 3 e 4), isolamento acustico, isolamento termico, tenuta aria, acqua e vento. Tutte le fasi produttive vengono svolte in azienda, punto di forza che permette la realizzazione di un prodotto unico, interamente Made in Italy e dal design ricercato. Obiettivo di Oikos è fornire soluzioni ad architetti ed interior designer attraverso un'ampia varietà di proposte tecniche ed estetiche. La vocazione dell'azienda all'internazionalità è dimostrata dalla presenza in tutti i principali Paesi europei e nei maggiori mercati in Asia, Africa, America. I caratteri che distinguono la sua azione sono: Curiosità, Dinamismo, Stile. I temi dominanti della sua ricerca sono: la Sicurezza, il Design, il Comfort e l'Affidabilità. Oikos tutela l'ambiente, il suo operato è infatti orientato ai concetti di **ecosostenibilità** e di **ecocompatibilità**, come confermato dalle certificazioni in suo possesso. Oikos attua una politica imprenditoriale volta al rispetto del territorio in cui è nata e continua ad operare, anche attraverso lo studio su materiali nuovi e riciclabili. Tutte le decisioni aziendali, dalle strategiche alle operative, vengono prese ponendo sempre massima attenzione alla responsabilità sociale e alla tutela dell'ambiente, segno di un Alto Profilo Etico. Oikos è da sempre impegnata nello sviluppo del tessuto sociale in cui opera, incentivando iniziative culturali e di valorizzazione del capitale umano. Dal 2009 collabora con l'Università Ca' Foscari di Venezia per un continuo miglioramento delle performance aziendali, applicando la ricerca accademica alla realtà operativa.

UNI EN ISO 9001

Sistema gestione qualità.
L'azienda è costantemente impegnata nel miglioramento del processo produttivo.
Quality Management System.
The company is constantly committed to improvement of the productive process.

UNI EN ISO 14001

Sistema di gestione ambientale.
Oikos è sensibile ai problemi ambientali e si è dotata della certificazione volontaria UNI EN ISO 14001.
Environmental Management System.
Oikos is sensitive to environmental problems and has obtained voluntary UNI EN ISO 14001 certification.

The mark of responsible forest management

Il marchio dichiara che Oikos utilizza legno proveniente da foreste gestite in maniera corretta e responsabile.
The Trademark identifies products that contain wood from forests that are managed in a correct and responsible manner.

Oikos: in ancient Greek, the term means "home". For over twenty years, Oikos has designed and manufactured its safety doors in its Guarato plant situated 50 km from Venice, in Italy. The market ranks Oikos among the industry leaders in the high-end category. Oikos manufactures bespoke safety doors of the highest quality. The entire production is certified: anti burglar (Classes 3 and 4), soundproof, thermal insulation and sealed against air, water and wind. All the manufacturing phases are performed in-house, a major strength that allows for the production of a unique product, that is entirely Made in Italy and features a sophisticated design. Oikos' main objective is to provide architects and interior designers with a wide range of technical and styling solutions. The company's focus on being an international concern can be seen in its presence across all the main European countries and the major markets in Asia, Africa and America. The characteristic traits which mark the company's activities are: Curiosity, Dynamism and Style. The main topics addressed in research activities are: Safety, Design, Comfort and Reliability. Oikos protects the environment. Indeed, its activities are geared towards concepts of **eco-sustainability** and **eco-compatibility**, as confirmed by the certifications the company has been awarded. Oikos implements an entrepreneurial policy aimed at respecting the territory in which the company was established and continues to do business, also by studying new and recyclable materials. All corporate decisions, from strategy to operations, are always made with a keen eye on social responsibility and environmental protection, which is a sign of the Highest Ethical Profile. Oikos has always been engaged in the development of the social fabric in which it does business, providing incentives for cultural initiatives and events which enhance the value of human capital. Since 2009, Oikos has worked together with Ca' Foscari University in Venice for the continuous improvement of the company's performances, applying academic research to the operational concern.

Certificazione di prodotto.
È la garanzia della sua conformità
alle norme e direttive vigenti.
Product Certification. This is the
guarantee that products are in
conformity with norms relative to
the products tested.

EN 71-3 "Sicurezza dei giocattoli". Oikos
utilizza solamente vernici all'acqua che
non rilasciano nel tempo sostanze nocive
a tutela dell'ambiente e delle persone.
EN 71-3 "Toy Safety". Oikos uses water-
based paints that do not release harmful
substances over a period of time.

Le porte Oikos sono marchiate
CE secondo la Direttiva
Europea 89/106CEE
Oikos doors bear the CE
marking in accordance with
European Directive 89/106 CEE

LE NOSTRE ANTICHE RADICI INVENTANO UN NUOVO FUTURO.

I sei sestieri di Venezia, simboleggiati dal ferro di prua della gondola veneziana, condividono con le sei linee Oikos la secolare cultura del progettare e dell'innovare.

OUR ANCIENT ROOTS INVENT A NEW FUTURE.

The six districts of Venice, the so called Sestieri, symbolized by the iron prow of Venetian gondolas, share an age-old culture of design and innovation with Oikos' six products lines.

Tekno

Evolution

TEKNO: CERNIERE A SCOMPARSA

L'ESTETICA DELL'ESSENZIALITÀ

La collezione Tekno nasce da un'esclusiva cerniera assolutamente invisibile quando la porta è chiusa. E' un particolare di pregio che permette al design di esprimere un nuovo senso del rigore e dell'essenzialità, valorizzando la linea e la finitura. La ricerca tecnologica Oikos definisce sempre nuovi standard estetici, risolvendo le componenti strutturali della porta con soluzioni innovative.

TEKNO: CONCEALED HINGES

THE BEAUTY OF THE ESSENTIAL

The Tekno collection was created using a unique hinge that is completely invisible when the door is closed. It is a valuable element that allows the design to express a new sense of rigor and essentiality, enhancing the line and finish. Oikos technological research always defines new aesthetic standards, applying the structural components of the door with innovative solutions.

ECOSOSTENIBILITA'

LA SFIDA DI OGGI PER IL FUTURO

Ecosostenibile è ciò che porta ad agire l'uomo in modo che il consumo di risorse sia tale che la generazione successiva riceva la stessa quantità di risorse che noi abbiamo ricevuto dalla generazione precedente.

ECO-SUSTAINABILITY

TODAY'S CHALLENGE FOR THE FUTURE

Eco-sustainable is what makes man behave in such a way that the consumption of resources ensures that future generations will receive the same quantity of resources which we received from previous generations.

OIKOS VUOLE FARE LA SUA PARTE

Vernici all'acqua, prestazioni termiche, legno certificato FSC da foreste a gestione responsabile, tutela ambientale certificata UNI EN ISO 14001: i prodotti Oikos vivono di ecologia.

OIKOS WANTS TO DO ITS BIT

Water-based paints, thermal performance, FSC certified wood from responsibly managed forests, UNI EN ISO 14001 certified environmental protection: Oikos products thrive on ecology.

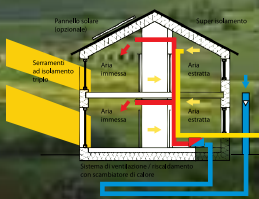

LA META DA RAGGIUNGERE

Oikos ha come modelli di riferimento gli istituti certificatori nazionali ed internazionali che stabiliscono i valori degli edifici sostenibili ad alto risparmio energetico e i criteri per realizzare la massima efficienza della "casa passiva".

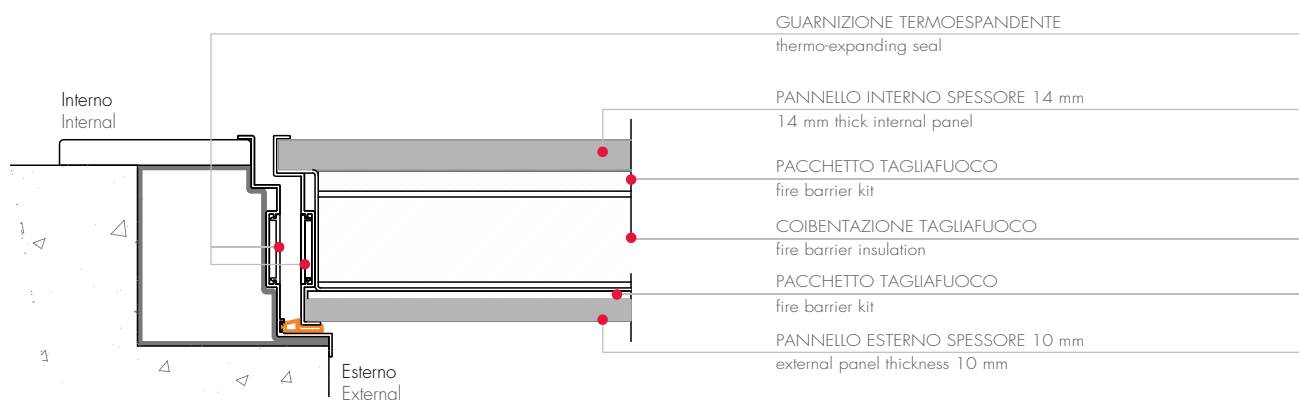

THE OBJECTIVE TO REACH

Oikos's reference models are both domestic and international certifying bodies which set out the values of sustainable buildings with high energy savings and the criteria to achieve the maximum efficiency of "passive houses".

UNA BARRIERA CONTRO LE FIAMME

La sicurezza della casa deve tener conto di numerosi fattori, anche del comportamento in caso di incendio. Tekno è in grado di fronteggiare il fuoco con una resistenza certificata EI 90.

EI90 FIRE RESISTANCE

A BARRIER AGAINST THE FLAMES

House safety must consider several factors, including the behavior in case of fire. Tekno is able to cope with fire with a certified EI 90 fire resistance.

ISOLAMENTO ACUSTICO 43 dB

IL PIACERE DI UN AMBIENTE TRANQUILLO

La tranquillità è un valore importante per l'ambiente domestico. Tutte le porte Oikos tutelano la serenità del vivere quotidiano con una struttura progettata per un ottimo isolamento acustico. Tekno isola dai rumori del mondo esterno con un valore certificato di 43 dB.

SOUND INSULATION 43 dB

THE PLEASURE OF A QUIET ENVIRONMENT

Quietness is an important value for the home environment. All Oikos doors protect the serenity of everyday life with a structure designed for excellent sound insulation. Tekno insulates against the noises of the outside world with a certified value of 43 dB.

ISOLAMENTO TERMICO DI SERIE U=1.6 elevabile fino a 0.92

PERFORMANCE DI ALTA GAMMA

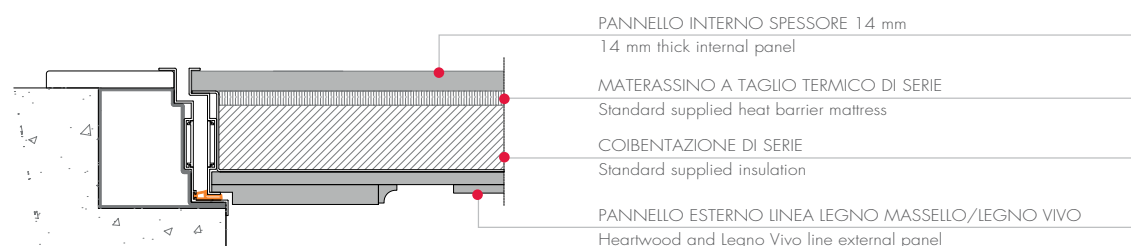

L'isolamento termico e il risparmio energetico sono prestazioni fondamentali per la qualità della vita e l'utilizzo razionale delle risorse. Tekno riduce lo scambio termico tra l'esterno e l'interno impedendo alle condizioni meteorologiche di influenzare l'ambiente domestico, in linea con l'impegno Oikos per offrire prodotti d'eccellenza, rispettosi dell'ambiente, certificati dai più autorevoli istituti e installabili anche in edifici realizzati con i più severi criteri di efficienza energetica.

IL VALORE CERTIFICATO DI SERIE PER LE LINEE LEGNO VIVO E LINEA LEGNO MASSELLO È **U=1.4 ELEVABILE A 0.92**

THE STANDARD CERTIFIED VALUE FOR THE LEGNO VIVO AND HEARTWOOD LINE IS U=1.6 UP TO 0.92

TEKNO Linea Legno Massello/Legno Vivo U = 1.4

THERMAL ISOLATION

TOP-OF-THE-RANGE PERFORMANCE

Thermal isolation and energy savings are vital to the quality of life and the rational use of resources. Oikos performs ongoing research to offer excellent products, which are environmentally friendly and certifiable by the leading institutes and can be installed even in those buildings which have been constructed according to the strictest energy efficiency criteria. Oikos doors reduce the heat exchange between outside and inside, preventing the weather conditions from affecting domestic settings.

ANTIEFFRAZIONE CLASSE 3

UNA CASA SICURA E PROTETTA

Difendere gli ambienti e proteggere la vita di chi li abita sono obiettivi della tecnologia anti effrazione Oikos. Tekno è la porta blindata bella e sicura certificata classe 3.

BREAK-IN RESISTANCE CLASS 3

A SAFE AND SECURE HOME

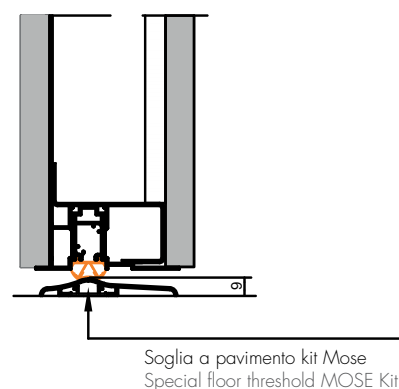

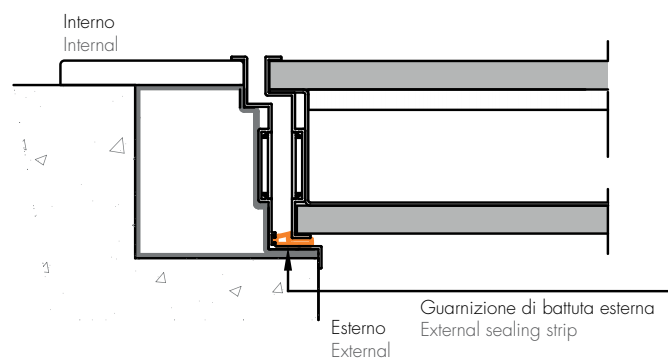

Protecting the rooms and the life of their inhabitants is the target of Oikos anti-burglary technology. Tekno is the nice and safe safety door certified as Class 3.

TENUTA	ACQUA	ARIA	VENTO
di serie	2	0	C4
a richiesta	4	5A	C5

IL MASSIMO DEL COMFORT

Tener fuori gli agenti atmosferici è il primo compito di una porta. Tekno lo assolve con le sue elevate prestazioni che creano un comfort eccezionale. Grazie ad uno speciale kit, non c'è condizione meteorologica che spaventi una porta Tekno, vera barriera ad alta tenuta contro l'aria e l'acqua.

RESISTANCE	WATER	AIR	WID
standard values	2	0	C4
upon request	4	5A	C5

MAXIMUM COMFORT

Providing insulation against weathering is the first task of a door. Tekno fulfills it thanks to its high performance, creating an exceptional comfort. Thanks to a special kit, there is no weather that scares a Tekno door, a true high resistance barrier against air and water.

PORTE TEKNO

TRE MODI PER DISEGNARE L'ELEGANZA

Tekno ha tre modi di integrarsi all'architettura della casa, ognuno con una progettualità e una caratteristica ben precisa, dalla cornice a due tipologie rasomuro.

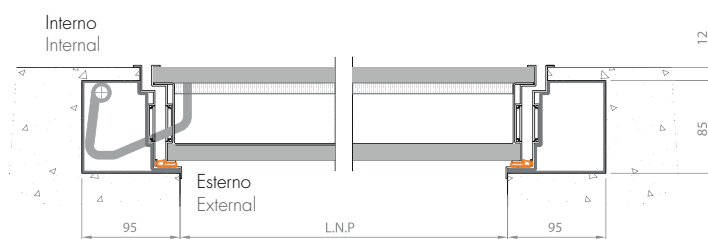

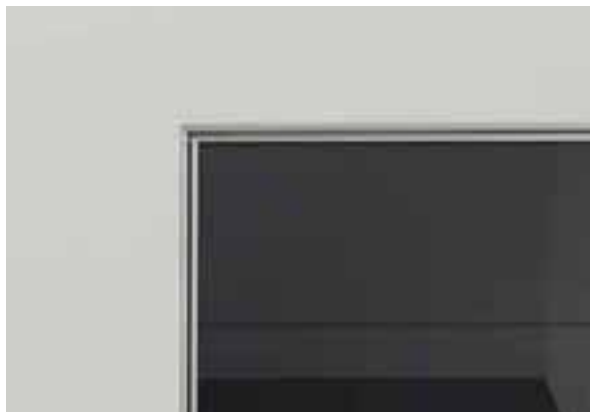

TEKNO DOORS

THREE WAYS TO DRAW ELEGANCE

Tekno door integrates in three ways with the house architecture, each of them with a very precise planning and specific features, from the surround to two flush with wall installation types.

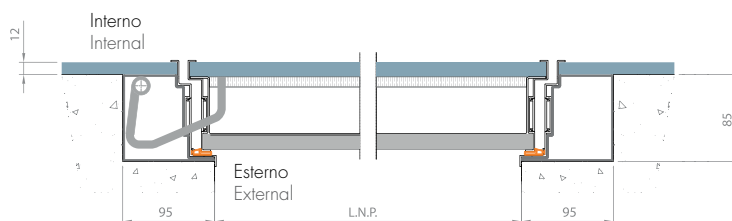

TEKNO RASOMURO INTERNO

TEKNO FLUSH WITH INTERNAL WALL

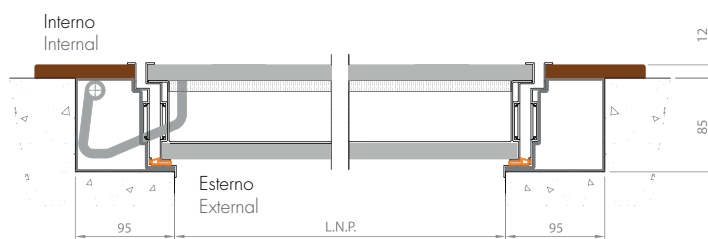

TEKNO RASOMURO INTERNO CON BOISERIE

TEKNO FLUSH WITH INTERNAL WALL WITH WALL SYSTEM

TEKNO COMPLANARE CON CORNICE

TEKNO COPLANAR WITH FRAME

LA VERSATILITÀ DELLE MISURE, DEI COLORI E DEI MATERIALI PERSONALIZZA L'ESSENZIALITÀ DEL RASOMURO E DÀ ALLA PORTA UN RUOLO DECISIVO IN OGNI PROGETTO D'INTERNI, SCOPRENDO NUOVE DIMENSIONI ESTETICHE E FUNZIONALI.

The versatility of the measures, colors and materials allows customizing the essentiality of the flush with wall installation and conveys the door a decisive role in any interior design project, discovering new aesthetic and functional solutions.

I RIFLESSI METALLICI DEI PROFILI INCORNICIANO
IL VETRO LACCATO GRIGIO E L'ACCIAIO INOX
DEL PANNELLO. LA MODERNITÀ ELABORA UNO
STILE IMPECCABILE, VALORIZZATO DAL DESIGN
RIGOROSO DELLA MANIGLIA.

The metallic reflections of the profiles frame the gray lacquered glass and the panel stainless steel. The modernity elaborates an impeccable style, enhanced by the rigorous design of the handle.

TEKNO **RASOMURO CON BOISERIE**

I RILIEVI GEOMETRICI DELLA PORTA
RASOMURO EMERGONO DAL
RIVESTIMENTO CON BOISERIE.

The geometric embossed elements of the flush with wall installed
door emerge from the facing with wall system.

LA FINITURA UNIFORME CREA PER LA PARETE
E LA PORTA UNA SUPERFICIE CONTINUA E
RAFFINATA, DOVE LA LUMINOSITÀ DEL BIANCO
SI INCRESPA NELLE VENATURE DELL'ESSENZA IN
UNA SOLUZIONE CHE ARREDA L'AMBIENTE.

The smooth finish creates a continuous and refined
surface for the wall and door, where the brightness of the
white ripples in the wood grains, creating a solution that
furnishes the environment.

TEKNO **COMPLANARE CON CORNICE**

TEKNO **COMPLANARE CON CORNICE**

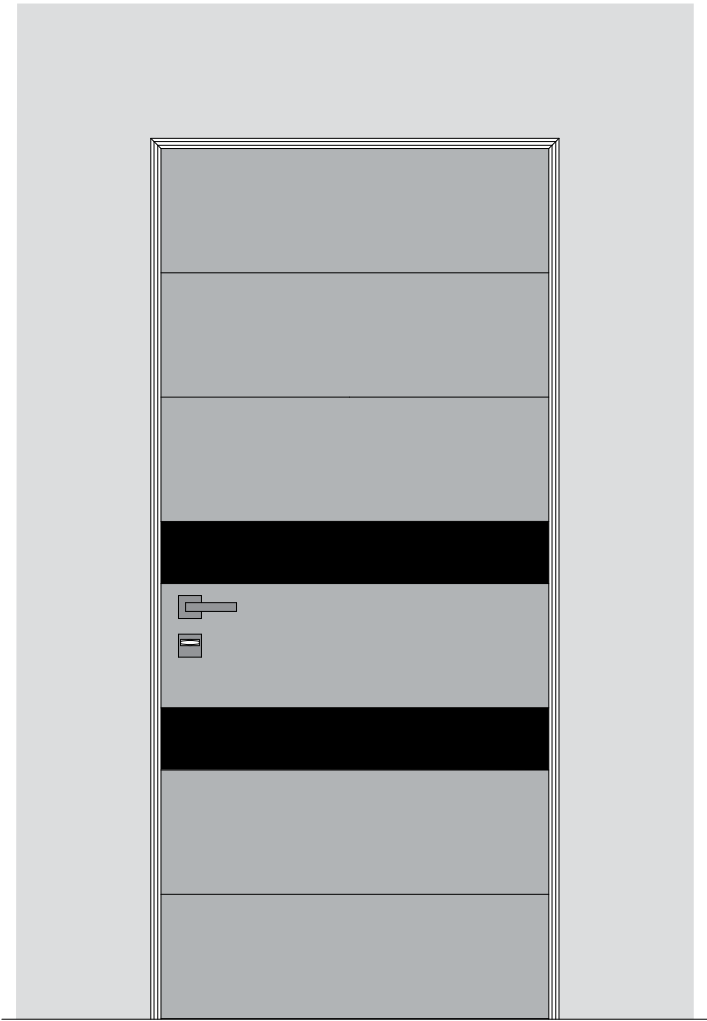

LE VENATURE DELLE ESSENZE PORTANO NEL GUSTO MINIMALE DELLA PORTA IL RESPIRO DELLA NATURA INTERPRETATA DAL COLORE, MENTRE LA CORNICE EVOCA L'ELEGANZA CLASSICA, PERFETTA IN OGNI CONTESTO.

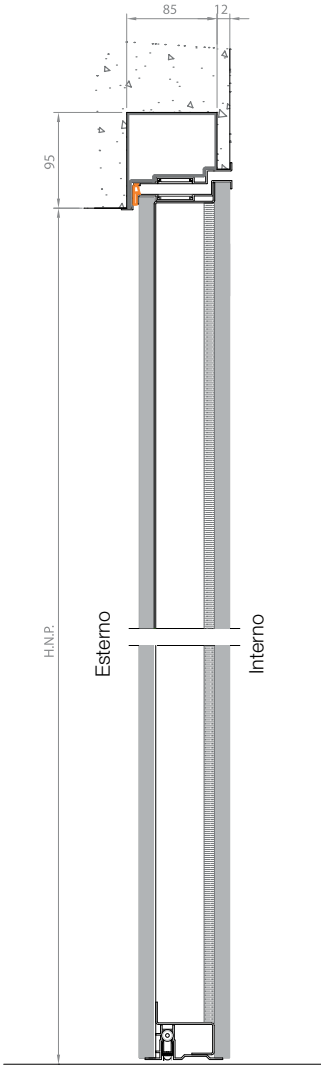

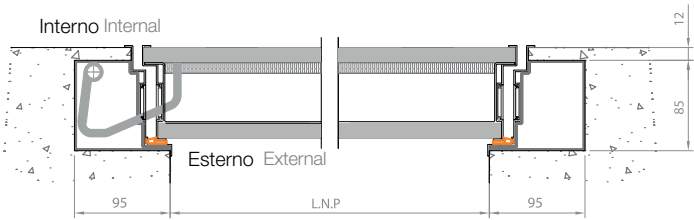

The wood grains add to the minimalist taste of the door the breath of nature interpreted by the color, while the frame evokes classic elegance, perfect in every context.
